We are indebted to Captain Hogue for a nice juicy bit of "matter" which he said we could use as a "filler." We are sorry, however, to state that on investigation we find that while "sticking" our last "take" that it "ran" over what we expected, and hence our form is "full." And owing to the fact that much of the matter in our form is "live" to run several months, we must delay the insertion of the "matter" till after our second issue in April. After which time our "form" will be emptier.
